

**TOOL 1: POST DISTRIBUTION MONITORING (PDM)**  
**Household Survey**  
**UNHCR Cash Based Interventions**

**Instructions for UNHCR staff:**

\* = Indicator marked in **red** with an asterisk is a **required core indicator**. The question should not be modified and should be included in all PDMs. For mandatory questions related to risks and problems, expenditure and negative coping mechanisms, you may add additional response options, or remove existing response options if it makes sense within the local context, and as long as you do not modify the existing response options. For mandatory questions on top five expenditures, you may use top three or less, as long as the question remains in the form. You may adjust the *wording* of the questions and response options, as long as the coding of the question names, groups and choices remains the same and the meaning of the questions and the response options do not change – see “coding”. Coding must be done using the standardised format.

  = question relates to an indicator in the CBI PDM Indicator Framework and should be included in PDMs. Refer to PDM Indicator Framework and CBI PDM User Guidance for more information.

◇ = response options need to be checked and adapted based on the context and purpose of the CBI.

➔ = option to insert sector specific and/or protection questions depending on the purpose of the cash based intervention. Refer to Technical Sectoral Annexes, Tools 1.2-1.7.

*All questions are select one, and the response options can be read out, unless indicated otherwise.*

**Instruction for coding and data entry:**

- An “owner” Kobo CBI account will be created for the operation, with full access to the form and the collected data.
- An “enumerator” Kobo CBI account will be created for enumerators in the operation, with the ability to submit data to the account.
- The HQ “cbipdm” Kobo account must receive “view submission” privileges related to the operation’s Kobo CBI account, in order to perform central data analysis and to populate the dashboard.

Hello, my name is (Enumerator) and I am working for UNHCR. We would like to ask you a few questions about the work of UNHCR. The answers to these questions will help to understand if there is anything UNHCR can do to improve how we work and what we do.

Your answers will not be used to determine if you or anyone in your household is eligible for assistance (or resettlement). Everything you tell us will be treated in confidence and will be combined with the answers that other people provide.
