ABSTRACT  
The Cash-Based Interventions (CBI) Post-Distribution Monitoring (PDM) survey collects data on refugee households that received cash assistance in the Nigerian states of Cross River and Benue. The survey records information from over 750 households across settlements, including Ikyogen, Adagom 1, 2, 3, and Okende. It provides insights into how the cash assistance was utilized and the overall impact on household needs. Conducted in August 2020, the survey informs future UNHCR interventions. The data were collected through face-to-face interviews using a cluster-stratified sampling approach and anonymized to protect personal information.
