STUDY TYPE
Sample Frame, Households [sf/hh]

ABSTRACT
The Socio-Economic Insights Survey (SEIS) conducted in May and June 2024 in Poland provides essential data to inform the 2025 Refugee Response Plan. This survey captures critical information on the socio-economic conditions of refugees, including demographics, protection, education, livelihoods, health, and accommodation. The findings are pivotal for shaping strategies and funding decisions that address the needs of refugee populations. Data were collected from a representative sample of refugee households and individuals across 16 regions of Poland, helping to identify key challenges and opportunities for enhancing refugee integration and well-being.

KIND OF DATA
Sample survey data [ssd]

UNIT OF ANALYSIS
Household and Individual

Version

VERSION DESCRIPTION
v2.1: Edited, cleaned, and anonymised data.
