ABSTRACT

The datasets provide an overview of key thematic areas covered by the Ulaanbaatar city-wide rapid assessment on population, migration and needs from June to August 2022. The datasets explore eight primary themes across Ulaanbaatar, namely, population baseline figures, registration, internal arrivals and departures (migration), employment, financial situation, mobility-related challenges, and services and infrastructure. Data are collected through key informant interviews with kheseg leaders, who are well-informed about their communities, resources and local context.
