Displacement Baseline Assessment - Northern Mozambique Crisis - 2023

COUNTRY

Name	Country code
Mozambique	MOZ

ABSTRACT

The increase of security incidents in northern Mozambique since 2017 resulted in population displacement as well as subsequent humanitarian needs in virtually every humanitarian sector. To better understand the scope of displacement and needs of displaced populations, and in light of the intensification of the situation, the International Organization for Migration (IOM) activated its Displacement Tracking Matrix (DTM) in the Cabo Delgado province in February 2019.
