59	Section I: Consent and Enumerator Details

We are conducting a survey on the behalf of a humanitarian organization and we would like to ask you some questions about you and/or your family. Some of these questions relate to your personal data such as your name, the names of your dependents, your address and telephone number in Lebanon. The aim of the survey is to have a better understanding of the living conditions and vulnerability of Syrian and others refugees in Lebanon. You have been randomly selected. The results of this research will be used by the humanitarian community to improve planning and humanitarian programmes.

The interview usually takes about one hour to complete. This is voluntary and you can choose not to answer any or all of the questions. However, we hope that you will participate since the information you will provide is essential to understand vulnerability and challenges faced by Syrian and other refugees.

To ensure the coordination of the needed protection and assistance, we may need to share the collected information, including your personal data, with other humanitarian agencies

In all cases, measures will be taken to prevent unauthorized dissemination of your personal data in line with international data protection standards.

If you don't have any questions, may I begin now?

Declaration: To be signed by the Principal Applicant and all adult members (Electronic signature / Box to be ticked)

I hereby authorize [UNHCR, UNICEF and WFP] to share any such personal data with humanitarian partners on the understanding that this is strictly limited to improving planning and humanitarian programmes and to meet fundamental needs (shelter, food and non-food distribution) and the provision of essential services (medical care, education, social and protection counselling) in Lebanon.
