Overview

ABSTRACT

The Country Opinion Survey in Jordan assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Jordan perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Jordan on:

- 1) Their views regarding the general environment in Jordan;
- 2) Their overall attitudes toward the WBG in Jordan;
- 3) Overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Jordan; and
- 4) Their perceptions of the WBG's future role in Jordan.

Sampling

Sampling Procedure

From June to August 2016, 318 stakeholders of the WBG in Jordan were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey. Participants were drawn from the Office of the President, Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; bilateral/multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs/community based organizations; the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the judiciary branch; and other organizations. A total of 85 stakeholders participated in the survey (27% response rate).

Response Rate

27%

Weighting

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'13 (response rate was 52%, N=132). Data were weighted to reach the same stakeholder composition in two years, which allows for year comparisons. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY'13 COS report and the non-weighted data presented in appendices A, B, C, D, and F. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix E (page 111) in the attached report.
