ABSTRACT

In July-August 2021, a participatory assessment was conducted to map the protection gaps and challenges faced by refugees and asylum-seekers in Syria. The assessment was conducted mainly through 80 focus group discussions (FGDs) that were conducted in 11 Governorates with the participation of 712 PoCs. The FGDs were conducted in areas with the largest refugee and asylum-seeker populations. The main areas included Damascus / Rural Damascus (26 FGDs), Hassakeh (18 FGDs) and Aleppo (12 FGDs). During the discussions, refugees and asylum seekers identified various protection challenges and made recommendations to UNHCR.
