ABSTRACT
UNHCR continuously collects data on incidents for protection monitoring in the Central African Republic as the lead in the protection cluster. This dataset contains incidents reported on victims in several prefectures of the Central African Republic. Protection incidents were continuously collected throughout the year by UNHCR partners FCA, leveraging their network of community relay and protection committees across the prefectures. This data contains incidents that affected 1700+ households in several prefectures of the country in the third quarter of 2022.
