ABSTRACT

UNHCR continuously collects data on incidents for protection monitoring in the Central African Republic as the lead in the protection cluster. This dataset contains incidents reported on victims in several prefectures of the Central African Republic. Protection incidents were continuously collected throughout the year by UNHCR and its partners, leveraging their network of community relay and protection committees across the prefectures. This data contains incidents that affected 1389 households in 13 of the 17 prefectures of the country in the third quarter of 2021.
