|------------|--------------|
| Kazakhstan | KAZ |

STUDY TYPE

Other Household Survey [hh/oth]

ABSTRACT

UNHCR uses Post Distribution Monitoring (PDM) as a mechanism to collect refugees' feedback on the quality, sufficiency, utilization and effectiveness of the assistance items they receive. The underlying principle of the process is accountability, as well as a commitment to improving the quality and relevance of support provided, and related services. UNHCR increasingly uses cash based interventions (CBIs) as a preferred modality for delivering assistance, offering greater dignity and choice to displaced people in line with UNHCR's core protection mandate. In order to ensure that the cash assistance provided meets the intended objectives and that desired outcomes are achieved, UNHCR conducts regular post-distribution and outcome monitoring with a sample of refugee recipients residing across the country.

This PDM covered people who received CBI in Kazakhstan in early 2022. Feedback on the modality was collected from 22 households in September and October of 2022.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Households

Version

VERSION DESCRIPTION

v2.1: Edited, cleaned and anonymised data

VERSION DATE

2023-09-20

Scope

NOTES

The Post-Distribution Monitoring covered:

- 1) Timely delivery of assistance
- 2) Spending habits of the household
- 3) Sufficiency of the amount disbursed
- 4) Coping strategies
- 5) Procedural effectiveness
